

REMARKS/ARGUMENTS

In order to comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, 37 C.F.R. §§ 1.821-1.825, Applicants submitted the original sequence listing on June 18, 2004.

The Raw Sequence Listing Error enclosed with the Notice to Comply with Requirements for Patent Applications Containing Nucleotide and/or Amino Acid Sequences mailed July 15, 2004 requests that foreign languages not be used in the sequence listing. In response to that request, Applicants now submit a substitute sequence listing containing no foreign languages.

Please find enclosed a substitute sequence listing in the paper and computer readable format to replace the original sequence listing and disk mailed on June 18, 2004. Applicants request entry of this amendment in accordance with 37 § C.F.R. 1.821-1.825.

This amendment is accompanied by a computer disk containing the substitute sequence listing in computer readable form, and a paper copy of the substitute sequence listing that has been prepared from the computer disk. The information contained in the computer disk was prepared using the software program "PatentIn" and is identical to the paper copy. This amendment adds no new matter.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

Joe Liebeschuetz
